Dear Mike:

Pat Metz has asked me to forward to you a copy of the SAROAD data base tape for the Prudhoe Bay Air Quality and Meteorological Study recently conducted at Prudhoe Bay, Alaska. The data tape contains hourly average air quality and meteorological data obtained from three site locations at Prudhoe Bay, Alaska. The monitoring site locations and SAROAD identification numbers are listed in Table 1 below.

Table 1

	Trailer 041 Sohio-BP Drill Pad A	Trailer 042 Arco Drill Site 9	Site 039 Sohio Tower
UTM Northing (km)*	7796.1	7793.0	7799.2
UTM Easting (km)*	443.9	453.0	436.1
SAROAD Site No.	020080041J02	020080042J02	020080039J02

*Universal Transverse Mercator (UTM) Zone 6

The enclosed data tape has been processed in SAROAD format, and is written in ASCII character code with a density of 1600 BPI. Attached is a copy of the tape format documentation and parameter codes for each parameter measured at Prudhoe Bay.

USEPA REG

0000093
